EOStringDictionary

```
public EOStringDictionary(com.webobjects.appserver.WOContext aWOContext)
```

Instance Methods

hasContent

```
public boolean hasContent()
```

hasDictionary

```
public boolean hasDictionary()
```

keys

```
public NSArray keys()
```

CLASS EOStringDictionary

name

```
public String name()
```

string

```
public String string()
```

CLASS EOStringDictionary

EOSwitchComponent

Inherits from: com.webobjects.appserver.WODynamicElement

Package: com.webobjects.eogeneration

Class Description

Documentation for this class is forthcoming.

Method Types

All methods

EOSwitchComponent

appendToResponse

Constructors

EOSwitchComponent

```
public EOSwitchComponent(  
    String aString,  
    NSDictionary aNSDictionary,  
    com.webobjects.appserver.WOElement aWOElement)
```

Description forthcoming.

Instance Methods

appendToResponse

```
public synchronized void appendToResponse(  
    com.webobjects.appserver.WOResponse aWOResponse,  
    com.webobjects.appserver.WOContext aWOContext)
```

Description forthcoming.

EOTabSwitchController

Inherits from: EOController

Package: com.webobjects.eogeneration

Class Description

Documentation for this class is forthcoming.

Method Types

All methods

EOTabSwitchController

Constructors

EOTabSwitchController

```
public EOTabSwitchController(com.webobjects.appserver.WOContext aWOContext)
```

Description forthcoming.

EOTitlesController

Inherits from: EOAssociationController :
EOWidgetController :
EOComponentController (eoapplication) :
EOController (eoapplication) :
Object

Implements: EOComponentController.EndEditing (eoapplication package)

Package: com.webobjects.eogeneration.client

Class Description

Documentation for this class is forthcoming. For information on using this class, see the book *Getting Started with Direct to Java Client*.

XML Tag	Default Rule System Controller Type

Constructors

EOTitlesController

```
public EOTitlesController(com.webobjects.eoapplication.EOXMLUnarchiver anEOXMLUnarchiver)
```

Description forthcoming.

```
public EOTitlesController()
```

Description forthcoming.

Instance Methods

addTitleKey

```
public void addTitleKey(String aString)
```

Description forthcoming.

connectionWasEstablished

```
protected void connectionWasEstablished()
```

Description forthcoming.

disposeAssociations

```
protected void disposeAssociations()
```

Description forthcoming.

CLASS EOTitlesController

endEditing

```
public boolean endEditing()
```

Description forthcoming.

newTitlesDataSource

```
protected com.webobjects.eocontrol.EODataSource newTitlesDataSource()
```

Description forthcoming.

newTitlesDisplayGroup

```
public com.webobjects.eointerface.EODisplayGroup newTitlesDisplayGroup()
```

Description forthcoming.

prepareForNewTask

```
public void prepareForNewTask(boolean aBoolean)
```

Description forthcoming.

removeTitleKey

```
public void removeTitleKey(String aString)
```

Description forthcoming.

setSingleTitleKey

```
public void setSingleTitleKey(String aString)
```

Description forthcoming.

CLASS EOTitlesController

setTitleKeys

```
public void setTitleKeys(NSArray anNSArray)
```

Description forthcoming.

setTitlesDisplayGroup

```
public void setTitlesDisplayGroup(com.webobjects.eointerface.EODisplayGroup anEODisplayGroup)
```

Description forthcoming.

setTitlesDisplayGroupProviderMethodName

```
public void setTitlesDisplayGroupProviderMethodName(String aString)
```

Description forthcoming.

titleKeys

```
public NSArray titleKeys()
```

Description forthcoming.
